Hörmətli Qonaqlar, Xanımlar və Cənablar!

zərbaycanda keçirilən Polo üzrə Dünya Kuboku 2014-ün ikinci buraxılışında sizi salamlamaqdan çox məmnunam.

Biz Azərbaycanda ilk professional polo yarısını təskil etməklə bir il yarım əvvəl beynəlxalq polo idman növünə start verəndə bu cox iddialı fikir və böyük hədəf idi.

Tam bir il əvvəl biz Azərbaycanda ilk beynəlxalq turnirə ev sahibliyi etdik və "Polo vətəninə qayıdır" şüarı altında Azərbaycanın sürətli idmanın ən müasir versiyasını belə təşkil etməyə hazır olduğunu təsirli şəkildə sübut etdik. Yarış keçən il sübut edildi: Polo vətəninə, Bakıya qayıtdı – və Azərbaycan möhtəsəm cıxıs etdi.

Bir il əvvəl ilk turnir keçirilən vaxtdan biz Azərbaycanda polonun gələcəyi üçün əsaslı və həyəcan verici strategiyanın inkişafına doğru böyük addımlar atdıq.

O vaxtdan bəri çox şey baş verib:

- Azərbaycan Beynəlxalq Polo Federasiyası qlobal təskilatının tam üzvü oldu.
- Azərbaycan polonun gədim növü olan Çovganın Qeyri-Maddi Mədəni İrs Siyahısına daxil edilməsi üçün YUNESKO-ya müraciət edib.
- Bu turnir Azərbaycanın Milli Polo Komandasının Debütü olacaq. İlk dəfə olaraq müstəsna təcrübəyə malik olan Azərbaycanın milli komandası beynəlxalq turnirdə iştirak edəcək. Bu özlüyündə böyük bir nailiyyətdir.

Atcılıq yarısı çox böyük fədakarlıq tələb edir. Və bu turnirin baş tutmasını reallaşdıran təşkilatçıların, heyətin, iştirakçıların, sponsor və gonaqların garşılıqlı təsirinin nəticəsidir. Beləliklə Azərbaycan Polo Dünya Kuboku 2014-ün baş tutması üçün tam enerji və fədakarlıqla çalışdığınız üçün sizə təşəkkür edirik!

Polo yarışmasından zövq almanızı arzu edirəm.

Dear Guests, Ladies and Gentlemen!

t gives me great pleasure to welcome you to the second edition of the Polo World Cup Azerbaijan 2014.

It was a very ambitious idea and a huge target, when one a half years ago we started our commitment to international sport of polo by creating the first professional polo event in Azerbaijan.

Exactly one year ago we hosted the first international polo tournament in Azerbaijan and under the slogan "Bringing Polo Home" proved impressively that Azerbaijan is ready to organize the fast sport in its very modern version. The competition last year has proven: Polo came home to Baku – and Azerbaijan made a spectacular party out of it.

Since the first tournament a year ago, we have taken great strides forward in developing a coherent and exciting strategy for the future of polo in Azerbaijan.

Since then some more things have happened:

- Azerbaijan became a full member in the global organization Federation International Polo.
- Azerbaijan has made an application to UNESCO for including Chovgan – an ancient kind of polo – in the List of Intangible Cultural Heritage List.
- This tournament will become a Debut of the National Polo Team Azerbaijan. For the first time an exceptional experience Azeri national team is playing in an international tournament. This in itself is a huge accomplishment.

Any equestrian event calls for outstanding dedication. And it is the perfect interplay of the organizers, personnel, participants, sponsors and guests that makes the tournament happen. So thank you to everyone involved in the Azerbaijan Polo World Cup 2014 for all your energy and dedication!

I wish you all a wonderful time of enjoying polo.

u il Elite Horse & Polo Club 5-7 sentyabr 2014-cü il Larixində ikinci beynəlxalq polo turnirinə ev sahibliyi edacak.

Bu il bizim üçün xüsusi ildir, bu il Azərbaycan Milli Polo Komandasının Debütü olacaq.

Bu ilin hadisəsi yeni süar altında keçiriləcək: Azərbaycan Polo Komandasina xoş gəlmisiniz!

Turnirin şüarı bizim hazırkı əhvalımıza əks etdirir.

Bizim məqsədimiz beynəlxalq ümumdünya polo turnirində istirak edən və polo dünyasında Azərbaycanı təmsil edən Azərbaycan Atçılıq Federasiyası ilə birləşən rəqabətli polo komandasını galib etməkdir.

Azərbaycan Milli komandasının təlimləri aprel ayında basladı və o vaxtdan bəri onlar daha da gücləndilər və hal-hazırda beynəlxalq turnirdə iştirak etməyə qadirdirlər. Valideynlər övladları ilə fəxr etdiyi kimi mən də öz Milli oyunçularımızla fəxr edirəm.

Bu turnir Argentina, ABŞ, Avropa və Azərbaycan da daxil olmaqla dörd beynəlxalq yığmanı səciyyələndirəcək. Onlar Copard, Monblan, Baltika 7 və Emba Wood kimi məşhur dünya komandalarını təmsil edəcək.

Keçən il polo turnirində iştirak edən oyunçuların bəzilərini bu il yenidən Bakıda görməyimə çox sadam. Bu onu göstərir ki, idman əlaqə yaratmaq və dostluğu davam etdirmək üçün effektiv yoldur. Maçlarda galib gəlinə və uduzula bilər lakin dünyadakı insanlar arasında dostlug əlagəsi güclənəcək.

Beynəlxalq turnirdə ilk dəfə olaraq iştirak edən Azərbaycan komandası ilə yerli azarkeşlərin maraqlı Polo oyununu izləməsi təmin edilir.

'Bu turnir iştirak, sponsorluq və əyləncə baxımından əvvəlki buraxılışla müqayisədə daha yaxşı təşkil olunacaq. Fransadan məşhur müğənni "In-Grid" və Qalada Şənbə günü naharda "I Love Italy/İtaliyanı sevirəm" mahnısı ilə İtalyan grup iştirak edəcək.

Biz digər bilet satışının və beynəlxalq və yerli auditoriyanın artmasına ümid edirik. 2014-cü ildə qonaqlarımıza

daha çox əyləncə və sürprizlər təklif edəcəyik.

Son olarag istirak edən bütün komandalara uğurlar arzulayır və bu maraqlı idman yarışına qatılan hər kəsə təşəkkür edirəm.

his year the Elite Horse & Polo Club will host the second international polo tournament on September 5-7, 2014.

This is a special year for us, as this will be a Debut of Azeri National Polo team. We are off to a great start!

This year's event will be conducted under a new slogan: Welcome the Azeri Polo Team!

The slogan of the tournament reflects our current mood.

We have put an ambitious target to train a competitive polo team affiliated with the Azerbaijan Equestrian Federation that competes in the international polo tournaments worldwide and represents Azerbaijan in the world of polo.

Training of the Azeri National team started in April and since that time they have gone from strength to strength and by now qualifying for the international tournament. Like parents proud of their successful children, so am I proud of our National players.

This tournament will feature four international teams including Argentina, USA, Europe and Azerbajian. They will be representing world famous brands Chopard, Montblanc, Baltika 7 and Emba Wood.

I am happy to see some polo players from the last year tournament coming to Baku again this year. This shows that sport is an effective platform to forge relationship and lasting friendships. Matches will be won and lost but friendship of people across the countries will be strengthened.

With the Azerbaijan team playing for the first time in international tournament local fans are guaranteed to see the exciting polo games.

This tournament will be an improvement over last edition in the scope of participation, sponsorship and entertainment. We will have a famous singer from France "In-Grid" and a band from Italy "I Love Italy" performing on the Gala dinner on Saturday.

We foresee another sold-out event and increase in the international and local audience. 2014 is going to offer even more fun, entertainment and surprises for our guests.

Let me end by wishing good luck to all of the participating teams and thanking everybody for joining this exciting sporting event.

Polo on snow is a success story which rocketed St.Moritz into the headlines of the international press in 1985 and which is a perfect match for its «top of the world» image. Private memoirs of the founder himself an active, world-famous polo player and honorary president of the St. Moritz Polo Club - illustrates the story, from the birth of the idea right through to the premiere. July 1983: we had been invited to a tournament in Munich with the St. Moritz Polo Team, which I had founded in 1978. As an expression of our gratitude, we gave a reception for all players and the press. I wanted to take this opportunity to promote tourism in my homeland, the Engadin. It was for this reason that I invited Dr Hanspeter Danuser, the director of the tourist board of St.Moritz, to this event.

IT WAS BORN IN MUNICH

The reception was organised for 1 p.m. We were delighted when we realized that practically all the Munich newspapers had accepted our invitation to attend! 10 a.m.: briefing with Dr. Danuser regarding the sequence of events. Dr. Danuser planned on giving a brief presentation on the history of polo in St.Moritz during the 1960s. Yet

this wasn't enough for him. «What do you think about the idea of organizing a polo tounnament on St.Moritz lake in the winter?» he asked me fairly directly, yet at the same time with a hint of doubt. He knew that attempts to hold such a tournament had been made during the 1960s but that it had been declared «mission impossible». I was fascinated by the idea –I found the idea of making the «impossible» possible the ultimate challenge. Dr. Danuser also had photos from the trial run back then, which had been organized by Christian Mathis and Dr Orazio Annunziata. The main problem seemed to be the balls- they had tried to play with the balls used for lawn polo! I recalled those inflatable balls they use for indoor polo in the USA-they also work on snow, I encouraged myself. Spontaneously and full of optimism, I replied to Dr. Danuser, «Polo on snow? That will work!» Dr. Danuser didn't have to be asked twice. The communications expert had his great news-the very same day, he announced to the assembled press that St.Moritz would organize the world's very first «Polo on Snow» event! The next day, we were on the front page of every Munich newspaper.

TESTING HOOF GRIPS AND BALLS

There was no going back now. It only became clear to me over the next few weeks what I had actually taken on. Apart from the issue of balls, the issues of preparation of the polo pitch and, above all, the stability of the horses on the snow had to be clarified. To this end, I met up with Gian Andreossi in Zurich, who told me of a «hoof grip» which had been invented by Peppino Cattaneo from St.Moritz. This «hoof grip» was a rubber insert, inserted between the hoof and the shoe to prevent snow, slush and dirt from collecting in the hoof cavity. We called Peppino, who immediately started the production of 100 grips and the accompanying shoes with studs. The tests were to be carried out on the lake in the winter of 1983/84; the world premiere of Polo on Snow was to be held in the winter of 1984/85.

Then came the moment of truth. Together with Gianni Berry and Hanspeter Horler, the then president of the racing club, we carried out our first test on the lake with three mounts wearing the hoof grips and several inflatable polo balls. Apart from the fact that the three mounts had never seen a polo mallet before and put on a real rodeo show, everything went smoothly! We had made great progress. We had the right ball, the horses were secure thanks to the right grips and the pitch boss Dorizzi had assured us

that he would «sort» the pitch with a small army of caterpillars. The very same day, the date was set for the world premiere of «Polo on Snow» 25/26 January 1985.

THE SEARCH FOR PLAYERS, HORSES AND FINANCIAL SUPPORT

Now all we needed to do was to find a team prepared to participate in this type of polo and which could provide the horses. Germany was enthralled by the idea: Heiko Lindena from Munich, Joe Schneider and Klaus Winter from Hamburg agreed spontaneously to come to the Engadin with their team and horses, supported and reinforced by the English 7-goaler Paul Whiters. The German team was born.

I compiled the second team from the faithful holiday guest to St.Moritz, Dr. Orazio Annunziata, the French polo professional Yvan Guillemin, the Spaniard Vlad Antoniades, who was living in Paris, little old me as team captain and St.Moritz Gianni Berry as substitute. This made up two teams, each with a team handicap of 12 goals. Spontaneous support came from Rolf Kressig from Geneva, who let us use his horses. The horses were to be transported to the Engadin by rail. Yet who was to pay for all this? This was the main question. It was clear to all that such a project could only be realized with outside financial help. First of all Icontacted

Yves Piaget in Geneva, who back then was a sponsor of polo tournaments all over the world and, full of enthusiasm I outlined the project to him. His reply was «Get it going and if it is successful, then we will come on board». We received the same reply from many other potential sponsors.

Then contact with Horst Edenhofer, the head of Cartier Switzerland, and his PR consultant Gigi Sutter was made via Dr Danuser. I outlined the concept at a meeting in Zurich – both Horst and Gigi were delighted by the idea. However, first of all Horst Edenhofer needed the agreement of the Cartier president Dominique Alain Perrin to go ahead. I knew Perrin from a polo tournament in San Antonio/Texas. Horst Edenhofer called Perrin from Zurich. His only question to me «Ça marche-ou ça marche pas?» I replied «Ça marche»-yes,it will work. We signed the sponsoring agreement the very same day.

CHAMPAGNE AND MELTING SHARES

This gave us the starting capital we needed to stage a world premiere. I also met up with Bruno Roncoroni, Switzerland's «Monsieur Pommery» He didn t actually have any financial resources, yet he promised that he would provide us with champagne for the event.

A few days later, I met up with Dr. Piero Dillier and Jochen Swoboda, the publisher of the Monaco Journal for dinner in Zurich. It

was at this dinner that we came up with the idea of «selling» the St.Moritz lake.The share price was set at CHF 100.-per square metre of ice: the share would become worthless when the snow melted, but would retain its intrinsic value. Dividends back then were a polo drink in the Polo Bar of the Carlton Hotel. We took this risk; and the risk paid off. The Cartier Polo World Cup on Snow world premiere was financed. Phew! Then came a call from Horst Edenhofer, «We have a problem-Cartier wants teams with a minimum handicap of 16!» However ,the teams we had compiled only had a handicap of 12. There was no way I could cancel the invitation we had already extended to the German team and all the friends who were supporting the world premiere. By chance, I had read in a magazine about the winter rules applicable to golf. I thought to myself , «What is good enough for golf is good enough for polo!» and, without further ado, I invented the winter rules for polo on snow. According to these rules, the handicap was increased by one goal. This gave both our teams a handicap of 16 goals. Cartier agreed to this. Preparations were complete, the lake was well frozen. Let the show commence...

SNOW AND SCEPTICS BEWARE!

It snowed very heavily on Friday night. It snowed incessantly, and about 80 cm of fresh snow covered the lake. The pitch,

which had been outstandingly prepared by Ermo Dorizzi, was hardly visible,

6 a.m.: Gianni Berry ,Ermo Dorizzi, Albert Nold (the then chief press officer) and I met for an emergency meeting. By chance,the head of St.Moritz police force, Mr. Moggi, was also there.We radioed all potential institutions which could possibly help us to clear the snow from the lake.

Unfortunately, no help was forthcoming. The situation seemend to be deteriorating. We informed the mayor, Hans Gartmann, Andrea Badrutt, the director of the tourist board, but there was evidently a tendency on the part of the municipality to cancel everything. 7 a.m.: notification arrived that no equipment could be sent to the lake to help clear it, since the equipment was far too heavy for the lake. This meant that lighter equipment (smaller snow blowers, Jeeps with snowploughs and suchlike) had to be brought to the scene. Within two hours, 18 small snow blowers and 5 Willy's Jeeps with snowplough equipment (including two provided by Marco Fumm from Sils) had arrived at the lake

It snowed on and on, and visibility was less than two metres. 1 p.m.: we had cleared an area of approximately 80 metres in length and 40 metres wide.

The infrastructure on the lake was made up of a tent for stabling the horses and a VIP tent with first-class catering by Reto Mathis. Around 130 journalists and 1.000 spectators had turned up.The atmosphere was superb-

visibility and pitch were lousy!
However, our decision was plain and clear – we would play, our world premiere would go ahead! I got up onto the table and announced «St.Moritz always delivers! We promised you polo on snow, and polo on snow is what you get!» The first polo on snow and, with it, the «Dr Berry Memorial Cup», was won by the German team. Everybody was over the moon.

The next day, our polo on snow was on the front pages of all the Sunday papers in Germany and Switzerland. Polo on snow had been born!

The weather on 26 January was fantastic, and more than made up for the day before. Thanks to the fire brigade working during the night, our pitch was in perfect condition, so that proper polo could he played. The stand was full. An exciting match ensued, with Cartier St.Moritz beating Germany 6:5. The start had been successful. The first chapter of a typical St.Moritz success story had been written.

And a final observation at this point: it is neither possible to play polo nor to organise polo tournaments alone. I extend a heartfelt «thank you» for the commitment and stamina of all the loyal comrades -in-arms and employees who have helped me during my 14 years as organiser of the «Polo on Snow» event. Grazcha fich.

/AXTIN DAYANMASI

V Hakim oyunun qaydalarına zidd hadisə, qəza baş verdikdə və ya öz qərarına əsasən vaxtı dayandıra bilər (Time-Out). Bu halda oyun dayanır. Top oyuna daxil olduqda vaxt yenidən başlanır.

OP SƏRHƏDİ KEÇƏRKƏN

Əgər top sahəni tərk edərsə, bu zaman topun sərhəddən keçməsi halı baş verir. Oyunu yenidən başlamaq üçün hakim topu sol tərəfdə oyun meydanı olmaqla iki komanda arasındakı nöqtəyə atır. Bu halda vaxt dayanmır.

✓OMANDALAR VƏ MÖVQELƏR

Komanda hər birində bir oyunçu olmaqla üç sahədə oynayan oyunçulardan ibarətdir. Komandanın hər bir üzvü əvvəlcədən təyin olunmuş mövqedə oynayır. Oyunçuların yerlərini müəyyən anlıq dəyişmələri mümkündür. Lakin onlar davamlı olaraq öz mövqelərinə qayıtmalıdırlar.

Nömrə 1 – əsas hücumçudur.

Nömrə 2 – irəliyə oynayır, lakin bəzən müdafiə də edir Nömrə 3 – adətən komandanın ən güclü oyunçusudur və onun əsas öhdəliyi oyunu hücum və müdafiə ilə istiqamətləndirməkdir.

___ AKIMLƏR

Oyunu ancaq mərkəzdə olan bir hakim idarə edir və onun qərarı qəbul olunur.

/NOCK-IN

Əgər komanda topu rəqib komandanın sahəsində olan arxa xətti keçməklə sahədən kənara atarsa, bu halda topu öz sahəsindən oyuna daxil etmək hüququ rəqib komandaya keçir. Bu halda vaxt dayanmır.

- IELD

A standard Arena Polo field measures 100 m in length and 50 m in width. At the end of the playing field is the baseline, behind which is a run-out area of 20 meters. The goals are positioned at the centre of the baseline, distance from post to post is 3,5 meters. Tapes of 1.20 m height at the sides are components of the playing field.

If the ball is out of play (behind the goal line), it shall be hit back in by defending team. If the ball crosses the side tapes, it shall be thrown back in at the centre of the playing field by the umpire.

OAL

When the ball crosses the imaginary line between the two goal posts at any height, this is considered a goal.

Whether the ball is knocked through by a mallet or by coming into contact with a pony, is irrelevant. After every goal, players will change ends.

HUKKAS

A polo match is divided into segments (chukkas). Games are played over 4 chukkas. Chukkas have a length of 7 minutes each of

pure play – any breaks are discounted. The end of chukka is indicated by the sound of a horn. After the first horn, play will continue for thirty seconds until the second horn is sounded. The last chukka of a match will end after seven minutes with the sounding of the first horn.

| ANDICAP

Every player possesses an individual handicap that is determined every season by a national commission for each country, in accordance with his strength of play. The handicap scale ranges from -2 to +10. The higher the handicap score, the better the player. Over 80 percent of players fall within a handicap range of -2 to +2. A team handicap is obtained by adding the individual handicaps of the team members.

Should teams of different strength play against each other, the difference will be counterbalanced by using different goal allowances, to the benefit of the weaker team.

C TICK AND BALL

The polo stick is made of bamboo or ash wood. The stick may only be held on the right hand.

The ball is of plastic (inflated, air) Diameter: approx. 15 cm, Weight: 130 grams

Color: red

TEAMS AND POSITIONS

Each team comprises three field players each. Each team's members play a predetermined position. It is possible for players to momentarily change positions, but they continually try to return to their original assignments.

No. 1 is the most offensive player

No. 2 is also a forward, but plays somewhat further back.

Nr.3 is the pivotal player, and usually is the strongest member of the team. His principal duty is to direct the game, switching between offence and defence.

MPIRES
Only one umpire (referee) standing to the centre of the playing field. His decision is final.

TIME-OUTS

An umpire will call a time-out when a foul is committed, an accident occurs, or he considers at his discretion that a time-out is necessary. Play will come to a stop; the timer will be restarted when the ball is once again in play.

UT-OF-BOUNDS

If a ball crosses the sideline and leaves the field of play, it will be considered to be out-of-bounds. To restart the game, the umpire will throw the ball in between the two teams, at the point at which is left the field of play. The timer will not be stopped.

I/NOCK-IN

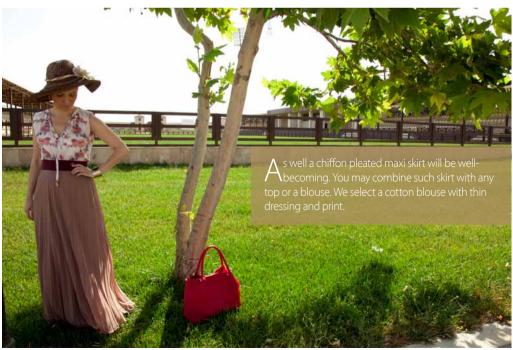

Should a team hit the ball across the opponent's backline and thus out of the field, the defending team will resume the game with a free hit from its own backline. The timer will not be stopped in this situation

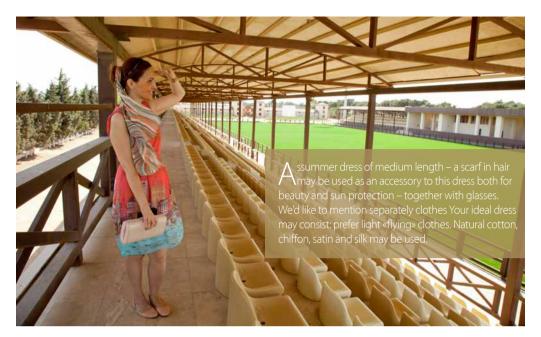

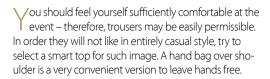

RENA JUZBASHI, A WELL-KNOWN PUBLICIST AND BLOGGER, AGREED TO SHOW THE IMAGES CREATED TO DEMONSTRATE «POLO DRESS CODE» VISUALLY.

Summer dresses and sarafans with flower print will be superbly suitable for such case. Remember, that you need to find a compromise between «convenient» and «beautiful». Moreover, maxi dresses excellently stretch silhouette without heels and, therefore, ballet shoes in combination with such summer dresses look very elegant.

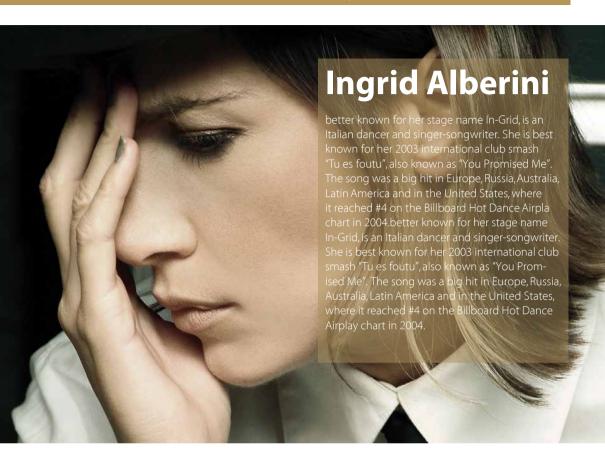

ne more cloth type excellently suitable for such case is linen. Linen clothes are light and cool, ideal version for out-of-town event. You may select a linen trouser suit or, as in our case, a rich red floor-length dress. This dress is the best choice as due to design and length it looks smart and, at that, cloth and handle make it wellbecoming at present event.

Switzerlands biggest city Zurich has become one of the clubbing capitols in Europe, a fact which some local DJs also can take credit for, such as Ray Douglas. At the start of the century, during a time when most clubs were strictly focusing on one musical genre, he brought Open Format mixing to many spots. Quickly after starting his career, Douglas' talent was spotted by the owners of the famous high class spot Club Indochine, where he played with many famous artists.

By 2012, Ray Douglas is a reference in Switzerland when it comes to combining different types of classics and contemporary dance music, always with the main focus on pleasing the sophisticated crowds of the most successful clubs. Thus it was no surprise that he got nominated for a "Swiss Nightlie Award" twice in the past two years as "Best Dance & Partytunes DJs".

Constantly improving his skills and widening his musical spectrum,

Douglas was booked by almost every major club of the country, and due to his sets with many internationally renowned DJs, he was recommended in other countries as well and played at venues as Cabaret (Moscow), Ulus 29 (Istanbul), Bangaluu (Berlin), Baby (Munich) and Chinawhite, Mayas and Aura in London. In 2011 alone, Douglas played over 130 gigs.

St. Moritz, 26 May 2014. The St. Moritz polo tournament on snow has a new backing and a new name: the traditional tournament on the frozen lake of St. Moritz and well-known worldwide will henceforth be called «Snow Polo World Cup St. Moritz». It will be backed by new investors and organised by a new operational team consisting mainly of people from the St. Moritz area.

The uncertainty about the future of the St. Moritz polo tournament on snow has come to an end: A team around Reto Gaudenzi – the man from St. Moritz who once launched the tournament and went on to manage it for twelve years – will be organising the «Snow Polo World Cup St. Moritz» as of next winter.

Well-known personalities from the Swiss polo circle are supporting the new tournament's organisation: Piero Dillier, Thomas Rinderknecht, Werner Meier and Andy Küchel have founded the «Evviva St. Moritz Polo Ltd» together with Reto Gaudenzi. Polo enthusiasts from around the world were invited to subscribe for the shares. The offer appealed greatly to both national and international investors and the demand exceeded the offer

The promoters have begun work on the project. Talks with potential main sponsors look promising and the city of St. Moritz has expressed its consent that the new organisers hold the tournament as of 2015. The first

«Snow Polo World Cup St. Moritz» will thus take place from January 30th through February 1st 2015.

BACK TO THE ROOTS

The winter polo tournament in St. Moritz is of particular significance: polo on snow was invented here more than 30 years ago. «Since its early days, St. Moritz has been the best polo on snow tournament in the world. The uncertainty about the future of this top event both in sportive and social terms bothered us greatly», explains the promoter Reto Gaudenzi. «Polo enthusiasts around the world have encouraged us to take over the St. Moritz tournament again and lead it into a secure future.»

To ensure a longterm future for the «Snow Polo World Cup St. Moritz», it must be solidly financed, renowned in sports and social circles and supported by the local community and by the valley's tourist industry. A new, very lean management structure, that, as in the early days, reunites more experts from the St. Moritz area, will help the tournament find a new foothold in the valley and among the local volunteers.
